She'll Thrill A Million At Annual State Fair

This young lady is Ethel Dare who has proven girls have just as much sand as men by doing such stunts as changing from one plane to another 1,000 feet in the air while both are traveling 90 miles an hour. She is expected to thrill a million people at the Michigan State Fair, Sept. 3-12.

One year ago millions of persons all over America at various times were thrilled by seeing daring aviators loop the loop, and do tail spins and other stunts which then seemed the very acme of foolhardiness. Since then however a slip of a girl and two men have made such stunts in the air seem as commonplace as taking a ride behind an old fashioned carriage horse in a country lane.

Ethel Dare walks all over an airplane traveling 90 miles an hour 1,000 feet in the air. After doing a few other stunts such as swinging from a trapeze bar under the plane she crawls her program by standing up on the upper wing of one plane, seizing a rope ladder suspended from another plane flying above her and climbs up into the second machine. Miss Dare is to be one of the star performers in the aviation day program at the Michigan State Fair which will be held Sept. 5. She also will appear on other days with other aerial acrobats during the 10 days of the fair from Sept. 3 to 12.

AUTO STAR TO TRY FOR WORLD RECORD

DIRT TRACK SPEED KING ALREADY HOLDS SEVERAL MARKS WHICH HAVE WITHSTOOD REPEATED ASSAULTS.

STATE FAIR RACES TO SEE HAUGDAHL, NEW CHAMPION

Establishing new state and world's records is becoming a daily habit with Sig. Haugdahl, automobile dirt track champion, who since the dirt track campaign opened last April in

SIG. HAUGDAHL

Atlanta, has been setting up new marks at every meet. And when Haugdahl steps on his Essex creation in the championship automobile races at the Michigan State Fair Saturday, Sept. 4 and Sunday, Sept. 5 spectators probably will see the little Scandinavian put a few records on the Detroit oval that will endure for some time.

In the first meet in Canada at Calgary, Alta., Haugdahl negotiated a mile on the half mile track in 1:03, which beat the old Dominion mark by exactly one second. A week later at Edmonton, Alta., he went after a new world's record for five miles and when he was given the checkered flag, the timers discovered he had registered 5:24, one second faster than the time made at Louisville, Ky. two years ago. At Saskatoon, Sask., Haugdahl established a new Canadian two mile record, going the distance in exactly 2:09.

During the races at the Michigan State Fair Haugdahl is going to attempt to set new records for from one to ten miles. Fair officials have put up \$1500 for speed trials, with \$1000 going to the driver establishing a new world's record and \$500 for a new state mark.

Several of the other starters, in addition to Haugdahl, will take a whirl at these figures.

Japs Uniform in Size.
The striking uniformity of size among the Japanese is illustrated by the fact that measurements taken of an infantry regiment showed no variations exceeding two inches in height or twenty pounds in weight.

Chinese Engineers Skintur.
Chinese locomotive engineers have the gentlest sense of touch with the airbrake of any in the world. A break in two is almost unheard of, and there is very little damage to cars in shunting on Chinese railways.

STATE FAIR PLANS FUR ANIMAL SHOW

FARMERS TO BE SHOWN POSSIBILITIES OF UTILIZING WASTE GROUND AND FATTENING THEIR POCKETBOOKS.

EXPERTS TO GIVE ADVICE AND EXHIBIT ANIMALS

G. W. Dickinson, secretary-manager of the Michigan State Fair, in line with his policy of offering to the people of Michigan in the great exposition they own at Detroit as many things of real constructive benefit to the state and its citizens as possible, this year has arranged to have presented at the fair Sept. 3-12 an exhibit of fur bearing animals. Efforts will be made to show the farmers of the state just how they can benefit by raising fur bearing animals and experts will be present to lecture and give advice.

"Nearly every farm," said Mr. Dickinson, "has some waste land which can be put to practical use by raising fur animals and which can be made to pay a big profit. Obtaining furs by domesticating the animals also goes away with the shame that is attached to catching them in traps where they must die slowly and in agony. Fred C. Peteraband, vice-president of the National Fur Breeders' Association, is to have charge of the exhibit and will be there all the time to assist those who might be interested in raising fur bearing animals when they learn of the possibilities offered."

The exhibit will contain these animals: 10 pairs of black and silver fox, two pairs of red fox, two pairs of cross fox, one pair of blue fox, one pair of white fox, one colony of 12 skunks, one colony of 12 coons, one colony of beaver, one colony of 12 muskrats, one colony of mink, two pairs of weasels, one pair of martens, one pair of ermine, one pair of sable, one pair of wolves, one pair of badgers, two pairs of woodchucks, two pairs of gray squirrels, one pair of black squirrels, two pairs of fox squirrels, one pair of cub bears and two pairs of deer.

TRIPLETS TO GET PRIZE

So many sets of twins and triplets have been entered this year in the baby show of the Michigan State Fair that special twin and triplet classes have been included in the premium list. Norval A. Hawkins, formerly general sales manager of the Ford Motor Co. and now president of the Sturgis Baby Carriage Co., has offered a baby carriage specially built for triplets as a prize.

Why People Buy Rat-Snap in Preference to Rat Poison.

(1) RAT-SNAP absolutely kills rats and mice. (2) What it doesn't kill it scares away. Rats killed with RAT-SNAP leave no smell, they dry up inside. (4) Made in cakes, no mixing with other food. (5) Cats or dogs won't touch it.
Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by E. C. Clapp and C. Murphy.—adv.
